

European Hygienic Engineering & Design Group

Introduction

Who is EHEDG?

EHEDG was founded 1989 as a non-profit consortium of

Equipment manufacturers

Food industries

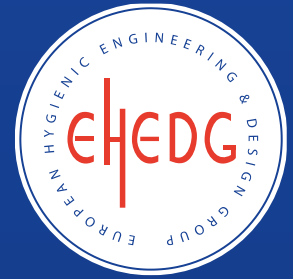

Suppliers to the food industry

Research institutes and universities

Public health authorities and governmental organisations

The EHEDG Vision

MARKET

A globally recognized authority

All stakeholders in the production of safe food

- Producers & retailers
- Equipment- & system-suppliers
- Service-suppliers & building-designers
- Academia
- Legislators and enforcement-agencies

PRODUCTS

A consensus based product portfolio

A comprehensive product portfolio

- Guidelines on processes, services and buildings, striving for harmonization on a global scale
- Testing & Certification
- Training & Assessment

STRUCTURE

A well-balanced membership with global coverage

A fully-transparent, non-profit organisation

- Funded by strongly committed members
- Relying upon voluntary contribution and active involvement
- Attractive for large and small

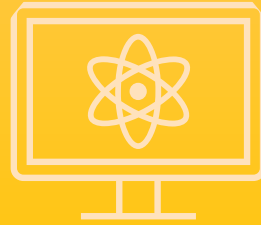

What are our objectives?

To provide guidance on hygienic design and engineering to ensure food safety and quality

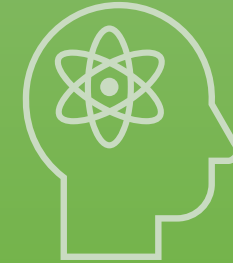

To offer a platform for the food industry to discuss issues on hygienic design

To develop science-based guideline documents on hygienic design requirements and practices to facilitate compliance to legislation

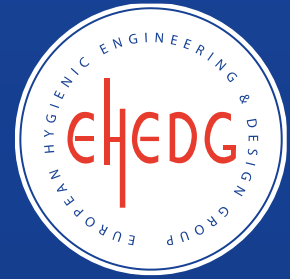

To maintain a transparent and unambiguous certification-scheme for hygienic equipment

To identify areas where hygienic-design knowledge is insufficient and to initiate and promote research and development in those areas

EHEDG Membership: what are the benefits?

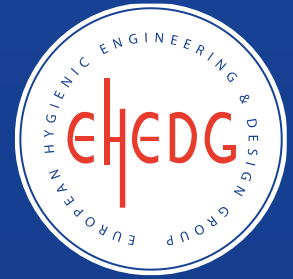

- EHEDG guidelines, including updates, for FREE download for up to 100 staff members;
- Possibility to share your knowledge in EHEDG Working Groups;
